Take performance to the x-treme

Up to 130% brighter light

Philips X-tremeVision car bulbs are the brightest you can buy. They outshine all other car bulbs with up to 130% more brightness and a superior beam of up to 130 metres. So you see further, react faster and drive more safely.

Maximum light, maximum performance

- See further and react faster with 130% more brightness
- The brightest bulb: ultimate visibility and performance
- The safest road-legal headlights

Increased brightness

- 20% whiter light to improve comfort and safety
- Exceptional beam quality and performance
- · Great contrast for a comfortable drive

Best-in-class lifetime

- A lifetime of safety so you can see and be seen
- Performance means more light and longer lifetime

Highlights

20% whiter light in your lamps

The bright white light (3700 K) is up to 20% whiter than standard headlamps. The Philips patented gradient coating technologyTM produces a more powerful light. So you can enjoy the brightest lighting performance and a highly comfortable night driving experience.

A lifetime of safety

Every potential failure of a spare part is a risk for you and your vehicle. This is especially true for headlights. Every broken headlamp reduces visibility and safety for you and the oncoming traffic. Philips X-tremeVision is optimised for a long and reliable lifetime. So you can see and be seen for longer than with any other high-performance lamp.

Exceptional beam quality

With a combination of more light and increased colour temperature, Philips X-tremeVision qualifies as the best-performing beam in the halogen segment.

Extra light, extra lifetime

Philips X-tremeVision headlights are made for ultimate performance, producing up to 130%

brighter light, without compromising on the lifetime. At up to 450 hours*, Philips X-tremeVision's lifetime is significantly longer than competitor solutions in the more light category. (*H4 and H7 tested at 13.2-V standard voltage).

Great contrast drives comfort

The increased colour temperature in Philips XtremeVision headlights (available in H1, H4 and H7) allows your eyes to focus better and perceive contrasts in the far distance. This makes driving after dark a far more comfortable and safe experience.

See further, react faster

Perfect illumination is especially important in the distance - usually between 75 and 100 metres in front of your vehicle. With Philips X-tremeVision car bulbs you can see up to 45 metres further, giving you 2 seconds' more reaction time. Philips XtremeVision boosts your visibility with up to 130% more light on the road. This helps you recognise obstacles and any potential dangers earlier than with any other halogen headlamp.

The brightest bulb available

With their optimised high-precision filament geometry, up to 13-bar high-pressure gas filling, highprecision coating and high-quality UV-Quartz glass, Philips X-tremeVision headlights set a new milestone in automotive lighting. They are engineered for the ultimate performance and uncompromising visibility.

The safest legal car lights
Philips X-tremeVision is by far the safest, easiest and most efficient way to upgrade your car headlights within legal parameters. The lights are fully ECE

Specifications

Product description

- Technology: Halogen
- Type: H7
- Range: X-TremeVision
- Application: High beam, Low beam
- Homologation ECE
- Base: PX26d

Electrical characteristics

- Voltage: 12 V
- Wattage: 55 W

Light characteristics

- Lumens: 1500 ±10% Im
- \bullet Colour temperature: up to 3700 K

Lifetime

• Life time: 450

Ordering information

- Order entry: 12972XV+S2
- Ordering code: 37170328

Packaging Data

- Packaging type: S2
- FAN1: 8727900371703
- EAN3: 8727900371710

Packed product information

- Pack Quantity / MOQ: 5
- Height: 13.3 cm
- Length: 11.0 cm
- Net weight per piece: 50.9 g
- Width: 5.3 cm

Outer pack information

- Gross weight per piece: 509 g
- Height: 12.0 cm
- Length: 28.6 cm
- Width: 14.1 cm

Marketing specifications

- · Expected benefits: More light
- Product highlight: Up to 130% brighter light
